Art and DT

Having studied and painted images in the style of Lowry who lived and worked in Manchester, painting scenes from life in the industrial North, we are now looking to Portsmouth creative inspiration.

DT task for this half term- plan and design a landmark/ sculpture that could be put on the sea-front at Portsmouth. Think about the influence of the sea on the history of the town and its long Naval History. This could then be made out of recycled materials. This would be a four week project in school.

Art- Draw or paint a picture postcard from Portsmouth- take inspiration from the images below or google sea front pictures of Portsmouth that include Spinnaker Tower. This art topic would run over 4 weeks- children would research, then do preliminary planning sketches before working on their final design.
