

IMPACT OF SPORTS FUNDING 2021/2022

Funding £19190

We have a commitment to provide high quality physical education and sport to our children. Not only does it equip our young people with physical literacy while supporting their physical development, movement skills and body confidence, but it also contributes to their physical, mental and social well-being. Teachers of children from Foundation Stage to Year 6, regardless of ability, have specialist support from a qualified sports coach.

IMPACT

- Excellent CPD for teachers as working in partnership with a specialist coach ensures that they are gaining confidence and the skills to deliver a variety of sporting activities so that enhanced sports provision can continue even if the funding stops in the future.
- The children actively enjoy, and are motivated by a variety of sporting activities that are fun but are teaching them sporting skills. They often practise these sports skills at other times during the week, ensuring that they are active for at least 30 minutes daily according to government guidelines.
- Children have become more confident approaching new activities and enjoying the variety of sports available to them.
- The quality of sports provision is enhanced throughout the school. Our Sports Coach has planned lessons which enable children to develop technically, physically, psychologically and socially • Our Sports Coach also runs the morning and after school clubs thus providing consistency in provision.

- There is a highly professional delivery of skills and techniques leading to children's skill levels being greatly improved. The Sports coach had undertaken CPD with other professional coaches and consequently there is increased pupil awareness of sporting opportunities available
- Pupils are confident participating in competitive activities.
- The Sports Coach is a strong role-model for the children and they are developing a healthy and active attitude towards sport
- There is improved confidence and self-esteem in pupils
- Children are involved in tournaments and they take pride in representing their School
- There is increased levels of fitness in pupils
- Children with a gift for a particular sport are identified and information given for them to broaden their experience externally
- Installation of new play equipment, trim trails have added to enjoyment for sport.
- Restocking and maintaining our wide range of sports equipment happens regularly to ensure children remain engaged with it.

Although sports funding is not used to fund swimming lessons, it is worth noting that we take steps to ensure that children are given the opportunity to Swim competently, confidently and proficiently over a distance of at least 25 metres, to use a range of strokes effectively and to perform safe, self-rescue in different water-based situations.
